Dear Coach Andrew:

I wanted to take a moment to thank you for the services you have provided us since our introduction to you in 2007. You have proved to be a valuable asset by providing our company with Training, Coaching and mentorship.

Our recent experience with you this year while working with my brother George and I has helped us reignite our passion of working together and provided us with direction that will surely grow our business. We and our staff enjoyed your recent Leadership trainings so much so that we enrolled many of our junior staff for a second session. We are confident these were a positive investment in our team.

We look forward to our continued work together and would not hesitate to recommend other business owners and executives to use your services as well.

Sincerely,
